TOLEDO

THE POWER UTOLEDO THE POWER UTOLEDO THE POWER UTOLEDO

Great Lakes Partnership Goals

1. Use emerging tools, Technologies, and Learning approaches to increase talent pipeline for nuclear energy industry
2. Engaging with the community & creating greater awareness of role of nuclear energy in meeting national energy and environmental goals
3. Building a workforce pipeline; increasing worker opportunities
4. Establishing a nationally recognized nuclear reactor safety credential (there was discussion of the distinction between credential and certification)
5. Ensuring USA leadership and global nuclear power, innovation and competitiveness
