Chairman's Report – LWRS update-April, 2024

Jim Lynde (PWROG Chairman & COO)

Organization

Executive Committee
 Chairman: Steven Sewell
 Luminant
 Vice Chairman: Bozidar Krajnc,
 NPP Krsko

Japan Management Group
 Nobuki Dohi
 Kansai Electric Power Company

Korea Management Group
 Sang-Min Lee
 Korea Hydro & Nuclear Power

Management Committee

**PWR Owners Group
 Program Management
 Office**
 Dewey Olinski PE
 PMO Executive Director

Steering Committee
 Chairman: Jim Lynde, Constellation
 Vice Chairman: Drew Richards, STP

Emerging Issues Group
 Drew Richards, STP

Analysis Committee
 Brian Mount
 Dominion

Licensing Committee
 Jordan Vaughan
 Duke

Materials Committee
 Tyler Whaley
 Ameren

Procedures Committee
 Jarrett Lavasseur
 TVA

Risk Management Committee
 Doug Rapp
 Energy Harbor

**Systems,
 Equipment &
 Engineering
 Committee**
 Jeff Hudson
 American Electric Power

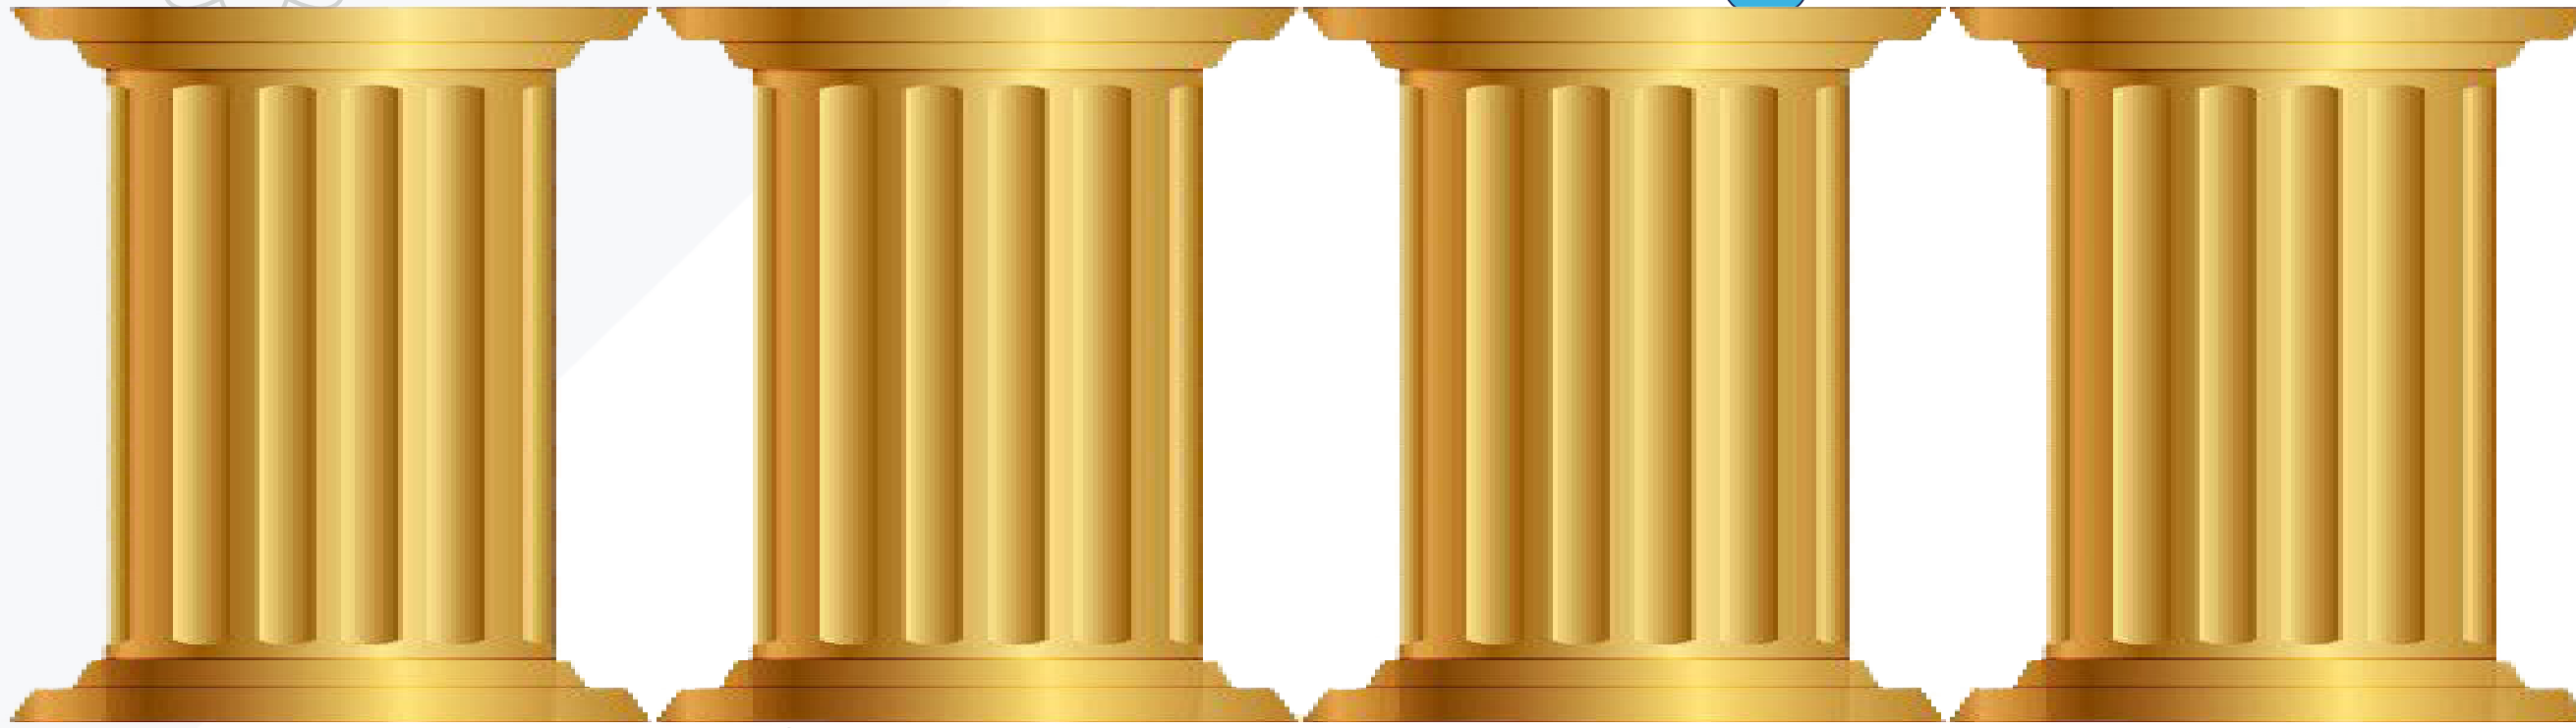

Reactivity Management Working Group
 Norm Austin, Southern
 Nuclear Operating Co.

**Reactor Coolant Pump /
 Reactor Coolant Systems
 Working Group**
 Ryan Siddens, APS

Rod Control Working Group
 Walter Miller
 Dominion

**Instrumentation &
 Control Working
 Group**
 Dana Schlosser, Dominion

Strategic Plan

Maximize Member Value

Excellence and Innovation

Plant Reliability

Leadership to Address Industry Issues

Collaboration & Coordination

Strengthen Industry

Success & Awareness Items

Industry Collaboration

- **FW Reliability Project – (BWROG, INPO, EPRI, FSRUG)**
- **PRA Training (NRC, BWROG, EPRI)**
- **RG 1.183 NRC Rule making (BWROG, NEI, EPRI)**
- **Strategic Plan**
- **Utility/IPP Discussions on going. Gain consensus on strategic projects. Develop OG utility team.**

International Support

- **Planning a Japan Workshop on Risk-Informed Decision Making – Tentative October 2024**
 - Goal: Support the Japan members to achieve their goal of initiating Risk-Informed Regulation to maximize resources for safe operation
 - Coordinating with the BWROG, w/possible support/attendance from CRIEPI, NRA, US-NRC
- **Planning a European Workshop on recent Materials Issues – Tentative November 2024**
 - Goal: Update the European members on the PWROG Support provided with the recent Core Barrel OE and EDF SCC.

Successes & Awareness

- **ROI – presentation from Prairie Island on use of Risk Informed Procedure Writers Guide (PWROG-21042-NP) alternate equipment concepts in recent loss non-safety related power event**
- **MSC – Ongoing Core Barrell Projects**
- **Provided comments with ASC and LSC in response to NRC Regulatory Basis for Rulemaking, Increased Enrichment of Conventional and ATF fuel designs)**
 - **Highly relevant to existing fleet, supports increasing MCR accident design dose limits**

Questions – Discussion ?
